## PHOTOGRAPHY

For more information,  
call (510) 494-4322

Instructor Len Cook has 15 years of experience as a photojournalist and over 25 years as a photographer and instructor.

### Digital Photography Ages 14 & up

In our NEW digital photography class, we will discuss camera basics and techniques for taking better pictures: portraits, family pictures, action pictures, travel pictures, and close-ups. Learn safe ways to store your pictures outside your camera so you won't lose your pictures! You'll also learn how to re-use the space on your memory card! We will answer questions like: What do the extra controls on my camera mean? How can I use the extra controls to make better pictures? What difference do they make? My camera can make lots of different sizes of pictures. Which size should I use? Should I always make the biggest size picture?

### Digital Photography II Ages 14 & up

**NEW**

You will learn to control your images and efficiently share them! Focal length, viewpoint, composition, lighting, sharpness and other controls contribute to the message in your photos. You will explore free and low-cost photo editing software as well as free and low-cost on-line photo sharing. Finally, you will learn how to get the best possible results from online or local printing services. Digital Photography II will help you take your photos to the next level.

## Outdoor Portraiture Ages 14 & up

NEW

People pictures are often best when simplest. Keeping portraits simple outdoors can be a challenge. Many distracting elements in the background, and shadows on the face spoil the photo. This workshop will focus on improving the photographer's eye for portraits, and simplifying the portrait image for pleasing results, free from shadows and distractions.

## Online Selling and Photographing Inanimates Ages 15 & up

NEW

Learn photography basics and some Photoshop techniques for making attractive images of artwork and small products. Artists and those interested in contest submissions, online selling, or school submissions will project their wares more effectively. Experiment with a variety of simple to slightly more technical approaches to lighting and staging flat art and three-dimensional art and products. Prepare images for digital printing.

## Travel and Nature Photography Ages 16 & up

Tired of bland, boring or just outright bad vacation and nature photographs? Whether your travels take you to exotic locales or just the local forest preserve, you can learn how to shoot like a pro. Learn powerful techniques for photographing people, landmarks, landscapes and wildlife. Discover why you should wake up early and nap at noon, and where to put stuff in the frame (a.k.a. composition). Classroom instruction will alternate with field trips for hands-on practice. To get the most benefit from this course you should have a basic understanding of digital or film (35mm) photography and own a camera with manual setting capability and a tripod.

'The intermediate sailing class is for students who have completed the Beginning Sailing Class, or have about 12 to 15 hours experience sailing as a skipper or active crew. This class will teach some techniques and offer practice beyond the beginner class, such as light and heavy air techniques, more on right of way and simple race techniques. At least part of the class will be taught in sloops; introducing crew/skipper coordination and handling of two sails (main and jib). Students should have clothes for either warm or cool weather, soft sole shoes, and a change of clothes in case they get soaked.'

### Creative Writing: Journalism Ages 5-6; 7-8; 9-11 or 11-14

Maintain the gains your child made during the school year! Journalism allows students to explore the writing process while exercising their creativity while strengthening their vocabulary and grammar skills. As they collaborate to create their very own newspaper, students practice four types of writing: descriptive, expository, narrative, and persuasive. Students have a great time working with their own newspaper 'staff' and gain important writing, revision, and editing skills. Don't miss this chance to spark your child's love of writing! Experienced educators, detailed feedback. \$25 material fee due first class.

### Pre-public Speaking: Confident Self Ages 5-6 or 7-8

Want your child to be an effective class participant and successful public speaker? Confidence is the key! Confident Self provides opportunities for students to understand and integrate manners in their daily interactions. While developing an excellent foundation for public speaking, students learn how to connect to others, recognize polite and impolite behavior, practice positive actions and a positive attitude, and become good audience members. As students engage in fun activities that exercise their manners, they discover how to be a better friend and a model student in the classroom. Small class, detailed feedback, and professional coaches! \$15 material fee due at the first class.

## Junior Math Olympiad & Enrichment Ages 5-6 or 7-8

Junior Math Olympiad stimulates a student's love for mathematics while introducing and sharpening analytical skills. Students learn and strengthen problem solving strategies through practice solving complex and challenging word problems. Strategies learned help students become flexible and creative when solving mathematical problems. As students work through problems and become more intuitive they begin to foster a joy and a thrill for successfully meeting the challenges that word problems provide. Developing these critical problem solving skills will enrich a child's academic and personal life, the younger the child starts the better. \$30 material fee due first class.

### NASA: Journey Into Outer Space Camps Ages 5-12

Mad Science and NASA have teamed up to bring you the excitement and wonder of space in this new voyage of discovery. See the principles of thrust and propulsion at work in a real rocket launch. Explore the atmosphere on earth and beyond. Watch star dust burn, and journey through a galaxy as you investigate the life cycle of stars. Explore the farthest reaches of our solar system and create a lunar eclipse in this 'mad' planetary tour. Probe the mysteries of meteors and bounce around satellite light as you learn about space phenomena. Experience the life of an astronaut as you suit up for space flight. This is an experience that is truly out of this world!

## MAD SCIENCE CAMPS, CONT.

### Reactions in Action Camp Ages 5-12

Picture yourself as Sir Isaac Newton as we discover how things move with science. Experiment with inertia and gravity as you learn what football players, ballet dancers and scientists have in common. Explore how equipment and movement work together to help you enjoy your favorite sports. Learn about photography and the movie making business as we examine how a camera works, how film captures light and stores images, how motion pictures got started, and how filmmakers make images move. Spend some time in the lab learning the tools and techniques that real chemists use, and perform some spectacular hands-on projects.

### Spy Academy Camps Ages 5-12

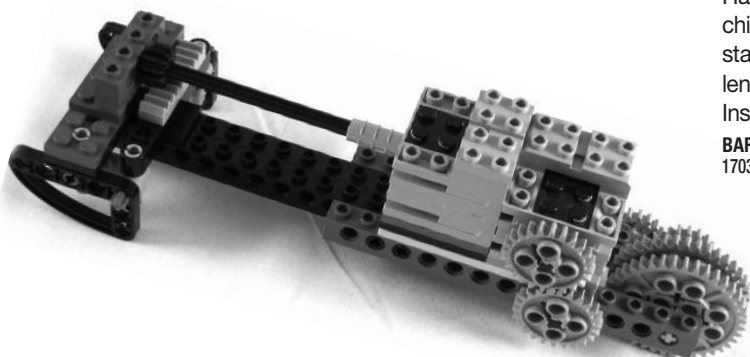

Look out 007-the Mad Science Spy Academy is here! From decoding messages to metal detectors and night vision, campers will have the opportunity to check out spy equipment and even create their own edible message. Step into the shoes of a detective as you uncover the science involved in evidence gathering and analysis. Figure out the science of forensics in a hands-on look at crime scenes. Become a super spy and learn clever ways of performing tasks as we take a hands-on view of the science that spies use. The take-homes for this camp were designed specially by Q himself.

### Wacky Robots & Widgets Camp Ages 7-12

Whether your child loves to build things or destroy them, this week of camp includes lots of both! The junior Mad Science engineers will design and build structures using simple tools and their imaginations. Campers will even construct a geodesic dome big enough for all of them to sit inside. Then the machine madness starts. Children will discover how different machines, simple and complex, are used in our daily lives. Kids will design simple machines using pulleys, wedges, screws and levers and have fun learning how catapults work. We will use the skills we've learned to build a Mad Science robot that we can keep, all while learning the science of robotics.

### Jedi Engineering with LEGO® Camp Ages 5-7

**NEW**

Young Jedi will explore worlds far, far away and engineering principles right in front of them. Defeat the Empire by designing and refining X-Wings, R2-units, and settlements on far-flung edges of the galaxy. Imagination and engineering combine to create motorized and architectural projects such as energy catapults, shield generators and defense turrets. A new offering of original designs for young Jedi ages 5-6 from Play-Well TEKologies. \$40 material fee due to Play-Well on the first day of camp.

Summer Playcamps offers your child a chance to play games, create arts and crafts, sing songs, play sports, conduct science experiments, and participate in storytelling, creative dramatics and more. Energetic, trained staff lead the children in this interactive environment throughout the summer. Off-site field trips will be offered weekly on Fridays including Aqua Adventure Waterpark, a homemade carnival with games and prizes, an adventure in Niles and Ardenwood Farm. Transportation to the field trips is the responsibility of the parent. Your child does not need to attend the school to be in this program.

## YOUNG APPRENTICE CAMPS

### Young Entrepreneurs Ages 7-11

In Young Entrepreneurs, children gain a deeper understanding and appreciation of how businesses are run and what people do in their everyday jobs. They learn teamwork, marketing, product development and pricing, the value of the dollar, and the gift of charity. During the week, participants create their own business, design a product, devise a marketing plan, and sell the product to the public. All proceeds from the sale go to a charity of the children's collective choice.

### Movie Magic Ages 7-12

The Young Apprentice uses a hands-on integrated approach that blends practical knowledge, arts & crafts, role-playing, guest speakers, and a weekly field trip. In this session, children will learn about the origin of film making in California and around the world (it wasn't all in Hollywood, some of it happened right here!) Find out why Charlie Chaplin is still funny today and how a man with a name like Broncho Billy became the very first cowboy movie star. More importantly, why did they come to Niles to make movies? Campers will venture behind the scenes of motion pictures as they create their own story, characters, script, set, and produce a short film. There will be a field trip to the historical Niles district and visit to the Niles Essanay Silent Film Museum to watch a double feature including their own creation!

### Young Storytellers - Fiction

Students will be divided into age/skill appropriate groups. A rocket-ship blasting to another planet, a detective sleuthing to crack the case, a sorcerer summoning an entire world. Students of Lekha School of Creative Writing's Story writing camp will learn about the genres these characters come from and how they can write stories of their own. From combining animals to create new characters to mapping out whole new worlds, the Young Storytellers class emphasizes using the child's creativity to create new stories.
